OEKO-TEX® certified to guarantee testing against harmful substances.

An eco-friendly production process results in less water, chemical and energy consumption. Made with spin dye technology, a process where the color pigment is fused with the yarn to save 95% of the water and 90% of energy it takes to dye yarns using traditional methods and results in long lasting color that never fades.

NOTES

01 - Embroidery Patch

For fine detailed logos, that can't be embroidered traditionally. Or any logos with option to have it with glue backing for self application.

02 - Embroidery

High value look & thread colours to match any logo. Metallic embroidery available.

03 - Flock

Created with a slightly elevated feel from the fabric. Retains vibrant colour after many washes.

04 - Heat Transfer Label

Provides images and text fused to fabric for permanent messaging and appeal.

05 - Applique Embroidery

Allows infinite variations of each design created. Twill and Felt appliques available.

06 - Foil

Works as a great design accent. Special printing that makes the graphic stand out.

07 - Woven Patch

An excellent way to emphasize quality and luxury. Adds aesthetic branding appeal.

08 - Chenille

It is a type of yarn, that creates a 3D texture (some would say, it resembles a plush carpet). Gives a very rich look.

09 - Screen Print

Solid print for bold and strong colours. Faded print gives an authentic vintage look. Ideal for tees and fleece.

10 - 3D Puff Print

Screen print ink that has been mixed with a heat activated foaming agent, providing a thick soft elevated print.

11 - Soft Foam

A raised look, that has a velvety texture. It gives a dimensional effect to create a premium design.

12 - Custom Labels

Take your brand visibility and recognition to a whole new level with customized labels. Elevate your retail brand.
